During the Interview of August 30, 2005, the Applicant and the Examiner discussed cited art Meier with respect to pending claim 1 of U.S. Patent Application 10/658,140. Specifically, the Applicant requested that the Examiner identify where, in the twelve columns cited to in the Meier reference, the specific elements of Applicant's claim 1 could be found. The Examiner responded that she was not sure where exactly in the twelve cited columns of the cited Meier reference the elements of Applicant's claim 1 were specifically located. Rather, the Examiner stated that she thought the elements could generally be found in all twelve columns of the Meier reference, which was cited for the first time in Examiner's Final Office Action.
